Allie Emerson is the girl voted least likely to save the world. At Peacock Flats High she can barely handle the bullies and drama queens; her mom's a loser and Dad's a no-show; so after an elderly neighbor gave her a magical moonstone necklace and helped her locate her mystically mysterious father, and Allie discovered her power to fight evil Trimarks,

Ad feedback

Ms. Brothers does a wonderful job of expanding the world she's created and adding interesting new characters to the mix. --Darque Reviews

This book has it all: danger, mystery, unexpected plot twists. The events of the book brought forward many unanswered questions and complications, and really made me look forward to the next book. I can't wait. --Unmainstream Mom Reads Blog

Susan

These are an absolutely fun read.

The character is 15yo, and it is probably really a 'twens novel. The pace is lively and the comic wit of our main fun girl is divine, and it's a good length. This definitely avoids the frivolity and shallowness that comes with the light 120 page read.

The novel remains very contemporary, with good supporting high-school action, good friends and a great array of adults ranging from parents, school teachers, peers and grand parents. So, there's lots of variation in the book that never leaves that sinking feeling with the unnerving need to skim. That's a big thing for me (and I'm sure I don't have a short attention span).

There's good paranormal stuff happening from astral travel, demons and magic. There's some kicking and fighting action, romance with a to-die-for sex demon, and good old teenage mum problems.

Go it! If you like a fun teen novel this is it. I'd certainly recommend it to lovers of series The Mediator by Meg

Moon Rise is the second in the Unbidden Magic series. I really was impressed with the first in this series. I happened across and immediately was drawn into this new world. I was tired of the usual witch, vampire, werewolf sagas that seemed to be overflowing everywhere and this was a perfect escape. This follows a few months where the last one left off. The main characters were back: Allie, Kizzy, Faye, the Trimarks; with the one exception of Junior..which made me sad. I really liked Junior in the first one and was sad for his absence. So, we find Allie is dealing with some major stress over her recent attack and the consequential death of a man who wanted to kill her. She is drowning in it and has lost her powers on top of it. Plus, she now knows her father but he's still basically absent unless he's talking to her about the moonstone. Slowly Allie learns to trust Beck and his sister Nikki who are half demon children. It's touch and go at first and I wasn't sure I was happy with the Junior replacement, but in the end I really liked them as additions to the story.

This addition to the series adds tremendously to the plot. You get to keep watching the current characters develop and meet some new ones. I couldn't put it down. You are kept guessing like a good mystery as to who the Trimarks are in this book and the suspense is addictive. A great read and I can't wait to read the third in the series. I am trying to pace myself since the author is still writing the 4th in the series and there is supposed to be 5 total. Hopefully, it won't be too long for it to be ready too.

★★★★★ **Sequel rocks!! All hail Allie Emerson...and Marilee Brothers!**

September 9, 2009

Format: Paperback | [Verified Purchase](#)

As someone who writes YA fiction, I seem to gravitate towards reading it as well. In June as I left for the beach, I tossed Moonstone into my bag, hoping to get a few pages in while soaking in the rays. Yeah, a few pages didn't happen. I devoured the entire book...much to the aggravation of my beach companions. I LOVED it. Allie's voice is dead on as a teenager, and her humor is dead pan. The world Ms. Brothers creates feels so real(trailer life, high school hell) that you forget you're even reading fantasy.

So, I was thrilled to not have to wait long for the sequel. Once again, I planned a few pages before bed. I have to blame Ms. Brothers for a poor performance at school the next day because I stayed up TOO late reading.

Like Moonstone, Moon Rise sucks you in. How can you not be sucked in when the first page reveals there's a serial ass pincher on the loose? Will the criminal go free, or will his ass pinching days come to an end? This is just one of the many questions the reader faces. First, I was devastated to learn the hunky hearthrob and protector, Junior Martinez, had gone away to Mexico. But the eye candy isn't missing. Enter Beck, a half demon and whole hottie! Yeah, his twin sister can be a pain, but she's got some redeeming qualities as well.

★★★★★ **I can't wait for book 3**

March 31, 2010

Format: Kindle Edition | [Verified Purchase](#)

This book was wonderful as an example of the modern fantasy and young adult genre book. Granted, there were a few typos and once I got the impression a character was misnamed because Miss Yeager seemed to be calling herself at one point on the telephone. That's not a huge problem. Also, either in this one or Moonstone, a few times it looked like Allie was calling the Trimarks "Tridents", but that could have been Allie playing dumb when talking to a Trimark or a typo left over from an edit. I don't know, but it was ok. The one thing, other than the identity of the Trimarks in this book, that only 75 percent surprised me really, is what happened to Junior Martinez. I mean, that was totally unexpected for me in this genre of book. Ms. Brothers does a bang up job of just the right amount of suspense filled with what I would say is a very accurate portrayal of a group of hormonal

★★★★☆ **good book**

I enjoyed this book, good characters and story.

teenagers dealing with very extraordinary circumstances. The big question for me is this, "Will they ever catch a Trimark to interrogate?". I hope so. I'm gladly awaiting, although I wish it would be faster, the release of book 3.
